

JOSH MANDEL

STATE TREASURER OF OHIO

The ECO-Link program works in conjunction with the energy efficient programs established by Ohio utility companies. The goal of the Treasury is to provide Ohio homeowners with resources to make smart energy efficient decisions. Many of Ohio's public utility companies offer rebates on energy efficient purchases and programs designed to lower current energy consumption. Homeowners can get additional cost savings on energy efficient purchases by combining the ECO-Link program and utility company programs. (Only homeowners are eligible for utility sponsored programs.)

Here is a list of Ohio utility companies and links to their residential energy efficient programs.

Buckeye Power (24 local electric cooperatives with varying programs) – Local Electric Co-ops

Columbia Gas – Home Performance Solutions

Dayton Power & Light – Residential Programs

Dominion East Ohio - Home Performance with ENERGY STAR® Program

Duke Energy – Save Energy & Money

First Energy (Ohio Edison, Cleveland Electric Illuminating, Toledo Edison) – Energy Efficiency Programs

Vectren – Conservation Connection
