STAR Ohio's Managers are Experienced Investment Professionals

The office of Ohio Treasurer is the investment advisor and administrator for STAR Ohio. The advisor manages the investment and re-investment of STAR Ohio's assets and is solely responsible for decisions to buy and sell investments of STAR Ohio.

The co-administrator is Public Funds Administrators ("PFA") (Dublin, OH). PFA is responsible for the fund accounting, shareholder servicing and fund administration functions for STAR Ohio. The custodian bank is Fifth Third Bank (Cincinnati, OH). Fifth Third Bank settles security transactions and distributes interest. The transfer agent, Mutual Funds Service Co. d/b/a Public Funds Administrators ("PFA"), a wholly-owned subsidiary of Meeder Investment Management, Inc., maintains the participant's account records, distributes interest, and produces statements with respect to account activity for the participants.

The co-investment advisor, Meeder Investment Management (Dublin, OH), makes investment recommendations and monitors investment compliance.

STAR Ohio offers the convenience of daily investments and withdrawals without penalty.

Introduction. STAR Ohio permits the state's political subdivisions and the State Treasurer to pool their public funds into a large investment fund managed by the State Treasurer and the State Treasurer's staff of professional portfolio managers. STAR Ohio provides Ohio public fund managers with a safe, liquid and low cost investment option.

STAR Ohio is designed for political subdivisions seeking to preserve capital, maintain liquidity, and provide current income.

STAR Ohio is similar in concept to a registered investment company issuing redeemable securities, commonly called a "money market mutual fund." A treasurer, governing board, or investment authority of a subdivision may deposit public monies of their subdivision with the State Treasurer. Subdivision is defined in Section 135.45(G)(2)(a), Ohio Revised Code, as any county, municipal corporation, school district,

township, municipal or school district sinking fund, special taxing or assessment district and other district or local authority electing or appointing a treasurer. The State Treasurer will invest monies deposited in STAR Ohio in the same types of instruments as are provided for the investment of interim monies of the State. A copy of the STAR Ohio Investment Policy Statement is available at www.tos.ohio.gov/investor-data/.

In order to manage STAR Ohio, Section 135.45, Ohio Revised Code authorizes the Treasurer to adopt such rules as are necessary for efficient administration and accounting. The rules, codified at Ohio Administrative Code Section 113-10-01, set forth policies regarding deposits, withdrawals, expenses and interest compounding. All bookkeeping and safekeeping associated with ownership of securities will be performed by STAR Ohio. The liquidity provided by STAR Ohio will also allow depositors access to their funds or bond proceeds deposited therein as and when needed, thereby eliminating the need for depositors to schedule investment maturities in order to meet expenditure needs or project draw schedules.

Investment Objectives and Instruments. The investment objectives of STAR Ohio are the preservation of capital, the maintenance of liquidity, and providing current income. STAR Ohio seeks to achieve these objectives by investing only in certain high-grade investment instruments authorized for investment by the State of Ohio as specified in Sections 135.143 and 135.145 of the Ohio Revised Code, and described below:

- (1) United States treasury bills, bonds, notes, or any other obligations or securities issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality;
- (3) Bonds, notes, and other obligations of the state of Ohio, including, but not limited to, any obligations issued by the treasurer of state, the Ohio public facilities commission, the Ohio building authority, the Ohio housing finance agency, the Ohio water development authority, and the Ohio turnpike infrastructure commission. Additionally, bonds, notes, and other obligations of any state or political subdivision thereof rated in the three highest categories by at least one nationally recognized standard rating service and purchased through a registered securities broker or dealer, provided the treasurer of state is not the sole purchaser of the bonds, notes, or other obligations at original issuance;

(4) Written repurchase agreements with any eligible Ohio financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank or any recognized United States government securities dealer under the terms of which agreement the State Treasurer purchases and the eligible financial institution or dealer agrees unconditionally to re-purchase any of the securities that are described in (1) or (2) above and that will mature or are redeemable within ten years from the date of purchase. The market value of securities subject to these transactions must exceed the principal value of the repurchase agreement by an amount specified by the Treasurer and the securities must be delivered into the custody of the State Treasurer or the qualified trustee or agent designated by the Treasurer. (The State Treasurer also may sell any securities, regardless of maturity or time of redemption of the securities, under the same terms and conditions for repurchase, provided that the securities have been fully paid for and are owned by the State Treasurer at the time of the sale);

(5) Securities lending agreements with any eligible financial institution that is a member of the Federal Reserve System or Federal Home Loan Bank or any recognized United States government securities dealer, under the terms of which agreement the State Treasurer lends securities and the eligible financial institution or dealer agrees to simultaneously exchange similar securities or cash of equal value;

(6) Various forms of commercial paper, maturing in two hundred seventy (270) days or less, issued by any corporation that is incorporated under the laws of the United States or a state, which are rated in the two highest categories by two nationally recognized rating agencies, provided that the total amount invested in commercial paper at any time shall not exceed forty percent (40%) of STAR Ohio's total average portfolio, as determined and calculated by the State Treasurer;

(7) Banker's acceptances, maturing in two hundred seventy (270) days or less, which are eligible for purchase by the Federal Reserve System, provided that the total amount invested in banker's acceptances at any time shall not exceed ten percent (10%) of STAR Ohio's total average portfolio, as determined and calculated by the State Treasurer;

(8) Certificates of deposit in eligible institutions applying for interim monies as provided in Section 135.08, Ohio Revised Code;

(9) No-load money market mutual funds consisting exclusively of obligations described in (1), (2) and (6) of this section and repurchase agreements secured by such obligations; and

(10) Debt interests, other than commercial paper described in (6) of this section, rated at the time of purchase in the three highest categories by two nationally recognized rating agencies and issued by corporations that are incorporated under the laws of the United States.

STAR Ohio is not permitted to borrow money, or pledge, hypothecate, or mortgage its assets. Pursuant to Section 135.143 of the Ohio Revised Code, STAR Ohio may lend up to twenty five percent (25%) of its securities to any eligible financial institution that is a member of the Federal Reserve System, or any recognized United States government securities dealer. For the fiscal year ended June 30, 2017, STAR Ohio did not participate in security lending transactions.

Net Asset Value. The net asset value of STAR Ohio is determined at the 2:00 P.M. fund close on each day that the Federal Reserve System is open for business. The net asset value per unit is computed by dividing the total value of the assets of STAR Ohio, less its liabilities, by the number of units outstanding.

It is the objective of the investment advisor and administrator to stabilize the net asset value per unit at \$1.00 for the purpose of sale and redemption of units for STAR Ohio, but this cannot be guaranteed.

Portfolio investments of STAR Ohio are valued on the basis of the amortized cost valuation technique. This technique involves valuing an investment at STAR Ohio's acquisition cost and thereafter assuming a constant amortization to maturity of premium or constant accretion to maturity of discount, regardless of the impact of fluctuating interest rates or other market factors on the market value of the investment. By declaring these accruals, less accruals of expenses, in a daily dividend, the value of STAR Ohio's assets and the net asset values per share will generally remain constant. Although this method provides certainty in valuation, it may result in periods during which the value of STAR Ohio's investments, as determined by amortized cost, is higher or lower than the price STAR Ohio would receive if it sold the investments. Expenses to be accrued include daily accruals of expenses incurred in acquiring, selling, carrying or redeeming investments, management fees, depository fees and other administrative expenses. The investment advisor and administrator have established procedures designed to stabilize, to the extent reasonably possible, STAR Ohio's net asset value per share, as computed for purposes of sales and redemptions, at \$1.00. Such procedures include review of STAR Ohio's portfolio holdings by the advisor/ administrator at such intervals it deems appropriate to determine whether

STAR Ohio's net asset value calculated by using available market quotations deviates from \$1.00 per share and, if so, whether such deviation may result in material dilution or otherwise be unfair to existing participants. Procedures the Treasurer's office, co-administrator, and co-advisor might undertake include selling portfolio securities prior to maturity to realize capital gains or losses or to shorten average portfolio maturities, withholding dividends, or establishing net asset values per share by using market quotations. In the event of deviation, the advisor and administrator will take appropriate action to eliminate or reduce, to the extent reasonably practical, dilution or unfair results, or otherwise take action if the deviation exceeds one-half of one percent. The investment advisor/administrator will review on a weekly basis whether any deviation from \$1.00 has occurred with respect to STAR Ohio's net asset value per unit and intends to act consistently with some of the procedures typical to certain money market mutual funds, to the extent not inconsistent with Ohio law and not inconsistent with the operating restrictions as described herein. The pool is managed to maintain a weighted average maturity to reset (WAM(R)) of 60 days or less and a weighted average maturity to final (WAM(F)) of 90 days or less, to enhance liquidity and to limit market price exposure to volatile interest rate movements in the market.

Standard & Poor's has assigned STAR Ohio its AAAM rating, the highest principal stability fund rating.

Standard & Poor's Rating of STAR Ohio. Standard & Poor's Ratings Services (Standard & Poor's) has assigned a "AAAM" principal stability rating, its highest rating, to STAR Ohio. By obtaining a triple A rating, STAR Ohio is considered to have a superior capacity to maintain principal (\$1.00 per share value) and limit exposure to loss. The rating is based on an analysis of the pool's management, investment guidelines, portfolio holdings and market price exposure. A copy of this report is available at www.STAROhio.com.

Redemptions initiated on the STAR Ohio online account may be transacted via ACH or Wire to a bank account on file. Purchases initiated on the STAR Ohio online account may only be processed via ACH.

Complete Withdrawals from STAR Ohio

The dollar balance in an account which may be withdrawn varies daily due to the daily crediting of interest and the reinvestment of such interest. Accordingly, if you wish to close out your account, you should not specify the dollar amount, but instead should request "withdrawal in full." A complete withdrawal may be accomplished by mail, wire or ACH through the procedures described above. Your final monthly statement will indicate the amount of the complete withdrawal attributable to principal and the amount paid as interest. The check writing withdrawal procedure is not appropriate for a complete withdrawal. Prior to effecting a complete withdrawal, if you have recently used the check writing withdrawal procedure, you should verify that all checks have been collected to avoid the possibility that your check may not be accepted for payment (due to insufficient funds).

Withdrawal Limitation. Twenty-four hours advance notice to PFA, STAR Ohio's co-administrator, is appreciated for redemptions of \$100 million or more. STAR Ohio reserves the right to limit the transactions to \$250 million per day. Transactions in all of a participant's accounts will be combined for these purposes.

Investment Distributions. Net interest income will accrue daily and be reinvested monthly. Net interest income consists of interest income accrued (including accreted discount and less premium amortized) less accrued expenses. The amount of discount or premium on portfolio investments is fixed at the time of their purchase. The investment advisor/administrator may distribute capital gains and/or losses (if any) from portfolio transactions over a period of time exceeding the day on which such gains and/or losses are realized. Quotations of the annualized daily rate and the seven-day average net yield are available at www.STAROhio.com and by calling 1-800-648-STAR (7827).

Interest will be credited on the day of investment provided that investments by wire transfer are received by the custodian bank no later than the 2:00 P.M. fund close and that investments by check are collected prior to such time. It is the responsibility of the STAR Ohio participant to ensure wires are sent to STAR Ohio with sufficient time to be received prior to the 2:00 P.M. fund close. Funds received after 2:00 P.M. will be deposited into the STAR Ohio account the following business day.

Inactive Accounts. Accounts without a balance and without transaction activity for eighteen months may be considered inactive. STAR Ohio will notify clients with inactive accounts once a year of the account status. In the event the inactive account should remain open, clients will have 30 days to provide written instruction to maintain the inactive account(s). Any accounts for which notification has not been received may be closed. Clients will then need to submit a new application to open an account.

STAR Ohio Website. The STAR Ohio website is www.STAROhio.com. You may access current account balances, view account history, view interest earned, initiate ACH deposit and withdrawal transactions, initiate wire withdrawal transactions, transfer funds between STAR Ohio accounts, view and print historical account statements and access additional resources for public fund managers. Prior to completing an online ACH transaction, wire withdrawal or inter-account transfer, valid account signers must request access by calling PFA at 1-800-648-STAR (7827).

Yield Information. The “current annualized yield” of STAR Ohio may, from time to time, be quoted in reports, literature and advertisements published by STAR Ohio. Current annualized yield with respect to STAR Ohio is computed by averaging the daily dividend declared by STAR Ohio during a seven calendar day period, dividing by the average daily price per share (normally \$1.00) over the same period, and multiplying the result by 365.

The yields quoted should not be considered a representation of the yield of STAR Ohio in the future, since the yields are not fixed. Actual yields will depend on the type, quality, and maturities of money market instruments held by STAR Ohio, changes in interest rates, and actual investment results.

Services to Participants. Confirmations of each investment and each withdrawal of funds will be available online within two days of the transaction. After the end of each month, a statement of each account will be mailed to each participant that will show the dividend paid and the account balance as of the statement date. These statements are also available on www.STAROhio.com along with historical statements. Participants may elect to forgo paper statements and view statements online only. Contact Client Services at 1-800-648-STAR (7828) if you choose to turn off paper statements. STAR Ohio will email all email addresses on file notifying participants that online statements are available for viewing even if they have not turned off paper statements. Any check the participant has written against an account in STAR Ohio which has been paid and cancelled during the month will be available upon request as an image of the original check. The option for receiving consolidated statements and/or combined mailings of statements is also available.

Tax Matters. Section 115(1) of the Federal Tax Code provides that gross income does not include income that is derived from the exercise of any essential governmental function and accrues to a state or any political subdivision thereof. The investment of public monies, including the proceeds of a bond issue, to receive earnings thereon until such monies or proceeds are spent on their proper purpose constitutes the exercise of an essential governmental function for purposes of Section 115(1) of the Code. Depositors in STAR Ohio have an unrestricted right to receive in their own right their proportionate share of STAR Ohio income as it is earned, based on their ownership of units therein. Consequently, the income of STAR Ohio will accrue to the depositors within the meaning of Section 115(1) of the Code.

Based on the foregoing, the income of STAR Ohio derived from the investment of public monies or bond proceeds is excludable from the gross income of the depositors. Accordingly, depositors do not need to file federal income tax returns with respect to income derived from STAR Ohio.

Changing Authorized Officials. New authorization forms and signatures should be filed for each account when the finance officer or other authorized official changes. Information and forms are available at www.STAROhio.com or by calling PFA at 1-800-648-STAR (7827). The updated form will replace any prior authorization designation. All persons authorized on the account should be included on the submitted form. Access will be removed for anyone not included on the updated authorization designation.
